

HOSPITALITY RIDER

Artist represented by ElektroSpank PR & MGMT
www.elektrospank.com
mgmt@pr.elektrospank.com

MAN1K has minimal hospitality requirements. The following conditions are not intended to be burdensome — they reflect basic comfort and safety needs for travel-based performances. Any points that are difficult to arrange may be discussed directly with the artist or representative.

TRANSPORT

- Return taxi or equivalent transport to be arranged by the promoter: to the venue before the event and from the venue after the event concludes.
- One-way transport immediately after the event is acceptable if the artist is departing the city the same night.
- Local contact number to be provided for transport coordination no later than 5 days before the event.

ACCOMMODATION

- A place to sleep is required for all shows involving travel. The artist has no requirements regarding standard or category — a hotel room, private room, sofa, or mattress are all equally acceptable. Accommodation at a shared house or the promoter's/organiser's own residence is welcome and appreciated.
- Accommodation must be available for the night of the event as a minimum.
- Secure storage of personal belongings must be guaranteed at the accommodation.

ROOM CONDITIONS

- Heating or air conditioning to be available depending on season and local climate.
- At least two European standard power sockets (Type C / Type E) accessible for device charging.

FACILITIES

- Access to a toilet, shower or bath, and washbasin.
- Clean towel to be provided if accommodation does not supply one.
- A designated smoking area is preferred where possible. If smoking is not permitted on premises, nearest outdoor area is sufficient.

ADDITIONAL NOTES

- This rider applies per artist. If traveling with additional crew or collaborators, requirements will be confirmed at time of booking.
- Any deviations from the above should be communicated no later than 7 days before the event.
- This rider is to be read in conjunction with the Technical Rider: press.man1k.xyz/dj-rider.pdf
- Current version: July 2026. This document supersedes all previous versions.
